Make yourself at home!
The compact guide to our campus

THE COLLEGE OF NEW JERSEY
“We’re so glad you’re here.”

We look forward to sharing our campus with you.

Grecia Montero, Executive Director of Admissions
To help you get to know us, we’ve mapped out 16 hot spots on campus. Have fun exploring the places where we love to live and learn.

Before you begin your tour, there are a few things we’d like to point out about The College of New Jersey.

1. Academic excellence

Our campus brings together the sharpest, most talented students with the highest-caliber faculty — in spaces designed to spark meaningful collaboration.

2. Goodness in people

Personal connections and shared experiences are the driving forces of our distinctive culture. You are welcome here and will feel at home in our community, which will support you throughout your college experience.

3. Financial savvy

TCNJ has the sixth-highest four-year graduation rate in the nation among public colleges and universities. Students who finish in four years will pay less, borrow less, and get started in their careers more quickly. It all adds up.
School of Nursing, Health, and Exercise Science
Where we thrive
First things first: Start your tour at Trenton Hall, home to the Departments of Nursing and Public Health. Nursing students get their steps in when they cross campus to Forcina Hall’s Patient Care Lab. Packer Hall works out well as the home for the Department of Health and Exercise Science.

In 2016, the school opened a $1.2 million state-of-the-art Clinical Simulation Lab, giving nursing students hands-on experience in a supervised setting. A second lab facility is available in Trenton Hall.

Our leading-edge Human Performance Lab serves as a classroom and research space for health and exercise science majors. Students hit the ground running in a variety of fields, including sports medicine and strength and conditioning.

Our public health major explores epidemics and the environmental causes of disease while quantifying the impact of disease.

95 percent of nursing majors pass the NCLEX nursing licensing exam, which is well above state and national averages.

The pulse
• Students from local schools come to TCNJ’s Human Performance Lab to practice good exercise habits while TCNJ students analyze how they respond to integrative neuromuscular training.

• The school’s Master of Public Health is available as a “4 + 1” option, allowing undergrads in relevant disciplines to earn an advanced degree with just one additional year of study.

• As one of eight Quality and Safety Education for Nurses Institute (QSEN) Regional Centers in the nation, TCNJ is playing a leadership role in transforming basic education for nurses to include knowledge, skills, and attitudes that emphasize quality and safety in patient care.

Majors
Health and exercise science
Nursing
Public health

School of the Arts and Communication
Where we thrive

Stop two: Creative juices flow in the **Art and Interactive Multimedia Building**, which houses an art gallery, photo lab, recording studio, sculpture room, and Mac labs with Adobe Creative Cloud. The Music Building hits all the right notes with the Mayo Concert Hall, ensemble suites, and private practice rooms. Students go live in Kendall Hall, equipped with a TV studio and radio station. Its Mainstage Theater is the boss for campus concerts — just ask Springsteen himself, who played there in 1973.

**Public Art**
The sculptures in this area represent pixels and are a nod to the digital imaging that students study here.

**Roll out the red carpet**

- A large number of communication studies majors showcase their brilliance by presenting scholarly papers at professional conferences.
- Grads land jobs at cool companies (Amazon, Columbia Records, MakerBot, Nickelodeon, NJPAC, TIME) and great grad schools (Berklee College of Music, NYU, Savannah College of Art and Design).
- Opportunities are plentiful in New Jersey, New York City, and Philadelphia.

**Learn more:**
artcomm.tcnj.edu

**Majors**

- Art education
- Art history
- Communication studies
- Interactive multimedia
- Journalism and professional writing
- Music
- Education
- Performance
- Visual arts
- Fine arts
- Graphic design
- Photography and video
- Undeclared—School of the Arts and Communication
School of Humanities and Social Sciences
Next up, the **Social Sciences Building** houses the lion’s share of our “-ology” majors including criminology, psychology, and sociology, as well as African American studies, history, international studies, and political science. Nearby is Bliss Hall, where English, philosophy, women’s, gender, and sexuality studies; and world languages and linguistics live.

Sunshine and foliage provide a zen study space in the **Social Sciences Building Atrium**. It’s also a favorite spot for presentations, group gatherings, and receptions.

In TCNJ’s **Cognitive Development Lab**, undergraduate research is at work as students and faculty welcome infants as young as 10 months to gain insights on what babies learn and how they learn it.

The **Department of Criminology**’s program is ranked sixth in the nation by criminaljustice.com.

Students enjoy a range of **global engagement options**. For example, in the summer study abroad course **Literary Landscapes**, they follow the footsteps of Dracula as they journal in the eerie Whitby Abbey ruins in North Yorkshire, England.

### Majors
- African American studies
- Criminology
- English*
- History*
- International studies
- Philosophy*
- Political science
- Psychology
- Sociology
- Spanish*
- Women’s, gender, and sexuality studies
- World languages and linguistics
- Undeclared–Humanities and Social Sciences

*Also available as a dual BA/MD through our Seven-Year Medical Program

### Ponder this
- A recent TCNJ political science major won admission to seven of the nation’s top law schools. She took a full ride to Columbia University to study civil rights law.
- Humanities and Social Sciences students are frequent recipients of prestigious government grants like the Boren and Gilman scholarships, which support overseas study.

Where we thrive
Everywhere! But to make the most of your time between classes, the **Brower Student Center** is the place to start. It’s HQ for more than 150 clubs, intramural sports teams, Greek life, and cultural and leadership programs. Other hot spots include the Spiritual Center, Roscoe L. West Hall for career advice and tutoring, and Eickhoff and Forcina halls for your health and wellness needs.

Our free-to-be-you activities include:

- All-College Theatre
- Animal Benefits Club
- Asian American Association
- Black Student Union
- Circus Club
- Crew
- Dance Team
- Disability PRIDE
- Environmental Club
- Hillel
- HOSA: Future Health Professionals
- Ice Hockey
- LeaderShape Institute
- Muslim Students’ Association
- New Jersey Christian Fellowship
- Pre-Law Society
- PRISM
- Roscoe, the Mascot
- Rugby
- Society of Women Engineers
- The Order of the Nose-Biting Teacups
- The Signal
- Ultimate Frisbee
- Union Latina
- Water Watch
- Women in Learning and Leadership
- WTSR
- Plus, that new club you’ll launch

Learn more: campuslife.tcnj.edu
TCNJ was founded in 1855 as the New Jersey State Normal School, the state’s first public college. Before moving to Ewing in 1931, it was located on Clinton Avenue in Trenton.

Green Hall is the oldest building on campus. Its cornerstone was laid in 1930. Originally, the building housed everything from labs and classrooms to faculty and administrative offices. It even contained a post office!

The building is named for James M. Green, who was president of the college from 1889–1917.

With its iconic clock tower, Green Hall is the college’s main administrative building. It houses essential services such as financial aid, records and registration, and student accounts. The Office of the President is on the second floor.
Men’s and women’s basketball hold court in the Packer Hall gymnasium. Wrestlers hit the mats here, too.

Dip into the Aquatic Center’s main pool, which features eight 25-yard lap lanes. The diving well has two one-meter and two three-meter diving boards.

June Walker, namesake of TCNJ’s softball complex, earned five national championships and 721 victories over 22 seasons as head coach.

Lions Stadium is home to TCNJ’s football, field hockey, men’s and women’s soccer, and women’s lacrosse teams. The facility hosts the college’s annual commencement exercises each May.

Athletics

Packer Hall is one of several campus facilities that serves as home turf for the TCNJ Lions. With 90 national titles — 40 team and 50 individual — the Lions are among the winningest NCAA Division III programs in the country.

Learn more: tcnjathletics.tcnj.edu
Though it houses traditional library collections and services, the R. Barbara Gitenstein Library is anything but stuffy. Comfy seating and a café make this campus hub more like a living room than a study hall. Seriously, put your feet up.

Fuel up on site at the Library Café, offering light fare for breakfast and lunch and plenty of freshly brewed caffeine.

Group project? No problem. We’ve got a study room for that — 26 of them, actually.

A 105-seat multipurpose auditorium provides an intimate space for campus and community cultural events like film viewings, poetry or book readings, and chamber music performances.

Gitenstein Library
The Atrium at Eickhoff is one of three main dining locations. Known simply as Eick to the locals, it boasts 10 “micro-restaurants” offering everything from brick-oven pizza and rotisserie salmon to fresh salads, omelets, and a designated allergy-friendly zone. Several café-style, grab-and-go options are conveniently located around campus, too.
Campus Living

It’s not just where we live, but where we call home. You’ll make it your own — and make lifelong friends in the process.
First-year experience
Next stop: Six traditional buildings featuring classic double rooms are dedicated to the first-year student experience. You’ll live in Living and Learning Communities with other students taking the same First Seminar Program course as you.

Allen, Brewster, Ely, and Norsworthy Halls
These three-story, Georgian-style residences are small and intimate, with rooms on the third floor that feature dormer ceilings and window alcoves.

The first three buildings, aka ABE, are physically connected and all named for women educators. Allen has a lounge with a fireplace and a baby grand piano.

Norsworthy is newly renovated and houses a game room with flat-screen TVs and a full kitchen.

Centennial Hall
This three-story residence features a newly renovated game room and community kitchen. Centennial is near the Gitenstein Library and the Education Building.

Learn more: housing.tcnj.edu

Travers-Wolfe Halls
Twin, 10-story residence halls, Travers–Wolfe is the residential experience most alumni remember. Its on-site dining room is nicknamed T–Dubs.
New Residence and Eickhoff Halls

Both New Residence and Eickhoff offer doubles, each with a private bath. Eickhoff has a superb food-court-style dining hall; New Residence has a large game room.

Sophomore living

Besides traditional residence halls, students can also choose suites or townhouses.

Decker Hall

In six-story Decker Hall, you’ll live in a suite — mostly two double rooms connected by a bathroom — with three other students. A few suites hold five occupants.

Cromwell Hall

Another six-story, suite-style hall, Cromwell is mostly three double rooms that share a bathroom and small foyer and house six students.

Townhouses East, West, and South

Each three-floor unit houses 10 students, each in a single room. Every floor has a bathroom and a kitchenette, with a living area on the first floor.
Upperclass living
Single rooms! Choose from townhouse suites or apartment-style residence halls.

Hausdoerffer and Phelps Halls
These twin, three-story, apartment-style residence halls provide three singles and one double room, accommodating a total of five students. Each apartment includes a kitchenette, living room, and bathroom.

Campus Town
Across from Trenton Hall (Admissions) sits Campus Town, a mixed-use development that rents single, two-bedroom, and four-bedroom apartments to juniors and seniors. Like residence halls on campus, Campus Town (campustowntcnj.net) has resident assistants on staff for emergencies, counseling, social events, etc.

Learn more: housing.tcnj.edu
School of Education
Where we thrive
The 72,000-square-foot Education Building hosts many of our classes and programs. We also use neighboring Forcina Hall. The coffee and egg sandwiches at the Education Building’s café bring the community together.

Progress report
- Founded in 1855 as the first teacher-training school in New Jersey and the ninth in the nation, the New Jersey State Normal School eventually became TCNJ in 1996.
- TCNJ-educated teachers can be found in nearly every district in New Jersey.
- The speech pathology and audiology major debuted in the 2018–19 school year.

Majors
Early childhood education
Education of the deaf and hard of hearing/Elementary or early childhood education (combined five-year bachelor’s and master’s program)
Elementary education
Secondary education: biology, chemistry, English, history, mathematics, physics, and Spanish
Special education (combined five-year bachelor’s and master’s program)
Speech pathology and audiology
Urban education (combined five-year bachelor’s and master’s program)
Undeclared–School of Education

Extra credit
Middle school specialization
Minor in environmental sustainability education

Learn more:
education.tcnj.edu
Where we thrive
The new **STEM Building** and Armstrong Hall are where engineering students build their skills. STEM has the latest in instrumentation and design technology, including a machine shop with a five-axis milling machine and advanced microscopy, tissue engineering, and biomechanics facilities. Armstrong houses a wood shop, Hydrology/Water Resources Lab, and a load frame and prototyping center. Both offer collaborative spaces for students to work closely with our expert faculty.

On the move
- Bring your passport! Travel to Ireland and Portugal for a summer study program in sustainability. Students examine best practices in energy production, waste management, water treatment, and government policy.

- Integrative STEM education
- Mechanical engineering
- Technology education/pre-engineering
- Undeclared—School of Engineering

*Also available as a dual BS/MD through our Seven-Year Medical Program
School of Science
Where we thrive
You are standing in the courtyard formed by the Physics and Math, Chemistry, and Biology Buildings. The only School of Science academic department not located in this quad is computer science, which is housed in the STEM Building. Outdoor spaces, like Lake Ceva, the fountain, and the Golden Spiral, form impromptu classrooms.

The High-Performance Scientific Computing Center strings together several hundred servers and provides a platform for the intensive computing needs of student and faculty researchers. Big data, high-performance computing, graphic processing unit-based calculations and modeling, and virtualization? No problem.

The Multidisciplinary Super Laboratory Suite includes synthetic, multipurpose, instrumentation, dry, and prep labs. This combination allows for seamless transition between computational, experimental, and analytical activities.

The school’s 27-inch telescope and extended-range camera allow students and faculty to achieve high-resolution, scientifically accurate images and conduct high-resolution photometry and spectroscopy of a wide range of celestial objects.

Faculty-Student Collaborative Research Labs extend throughout all of our buildings. These rival those of much larger universities. The difference? You have the keys. Our modern labs and state-of-the-art instrumentation are fully accessible to our undergraduates.

Standout results
- TCNJ is recognized as a national leader in undergraduate research by the Council on Undergraduate Research.
- The Howard Hughes Medical Institute has recognized the school as an inclusive excellence institution in providing access and fostering success for all of our science students.
- More than 95 percent of our science students are employed or in graduate school within one year after graduation.

School of Business
Where we thrive

We may hone our skills in the **Business Building**, but we apply them everywhere — around the campus to around the world. Nearly 80 percent of TCNJ business students complete at least one internship or co-op experience, giving them a competitive edge in a challenging employment marketplace.

**Majors**

**Case competitions** — sponsored annually by Johnson & Johnson, PricewaterhouseCoopers, Target, and more — help our students develop team-building, analytical, and networking skills.

**Case competitions** — sponsored annually by Johnson & Johnson, PricewaterhouseCoopers, Target, and more — help our students develop team-building, analytical, and networking skills.

**Business intel**

- TCNJ’s Mayo Business Plan Competition has the largest prize pot for up-and-coming entrepreneurs in the state: $60,000 split between three winning teams.
- Poetsandquants.com named two TCNJ professors to its inaugural list of top 40 business professors in the nation. The school itself is ranked in the top 50 in the U.S.
- Bank of America, Bloomberg, CITI Group, Deloitte, Ernst & Young, Johnson & Johnson, JPMorgan Chase & Co., KPMG, L’Oreal, Merck, Merrill Lynch, PNC Bank, PricewaterhouseCoopers, Target, and UPS are among the top TCNJ employers.

**Live stock market and news updates stream through TCNJ’s Bloomberg terminal, which provides the same information available to Wall Street hotshots.**

**Get down to business abroad at the European Study Center in Heidelberg, the financial hub of Germany. Semester-long and summer trips are available for sophomores, juniors, and seniors.**

**The Herbert B. Mayo Student Investment Fund** lets students analyze stocks and make investment decisions using real money, managing a portfolio valued at $400,000.

Campus Town

Completed in 2016, Campus Town is the result of a public-private partnership between TCNJ and a private developer, which built and manages the property.
Another community hub

Campus Town is conveniently located across Metzger Drive from Trenton Hall. The property’s 11 buildings contain single-, two-, and four-bedroom apartments that house 612 students, as well as shops and restaurants that serve both the college and the community.

Hungry after your tour?
Grab a bite at one of the many dining locations. Options include: Barnes & Noble Café, Mexican Mariachi Grill, Panera Bread, Redberry Frozen Yogurt, and Yummy Sushi.

Tone up at TCNJ’s Fitness Center, which houses the latest resistance training and cardiovascular equipment from leading brands.

Looking for a TCNJ sweatshirt? You’ll find plenty to choose from at the Barnes & Noble Bookstore.

Campus Town hosts special events throughout the year, including the 31 & Main Farmers Market from June–October.

- Infocus Urgent Care
- Polished Nails

*And, more to come...*
Spend an afternoon reading by the picturesque Lake Sylva.

Lake Ceva hosts the annual Cardboard Boat Regatta.

The Townhouses represent one of the many living options available to students. Single rooms, suites, and apartment-style residence halls are also available.

The Golden Spiral, a sculptural installation that doubles as an outdoor classroom, was inspired by the golden ratio — perfectly symmetrical relationships between two proportions.

Bring your green thumb to our community garden. Food grown here is donated to residents of the Trenton/Mercer County area.

From their home in the Administrative Services Building, Campus Police can get to any spot on campus in under two minutes.

Metzger Drive

Take the scenic way home by driving the loop road that circles the campus. We hope you enjoyed the tour — and we look forward to seeing more of you.
